MILITARY SECTION

SUBJECTS

ABATTOIR.

United States War Department. Army Regulations. No. 40–2155. Veterinary antemortem inspections. 3p. 8° Wash., 1921.

Cerbulescu, C. Pieile tabacite necesare armatei. Rev. san. mil., Bucur., 1936, **35**: 1152–4.—**Ranc, A.** Sur l'emploi des déchets d'abattoirs des armées en campagne. Rev. path. comp., Par., 1917, **17**: 134.—**Salhoff, S.** Mit einem Schlächtereizug im Osten und Westen. Zschr. Fleisch Milchhyg., 1940–41, **51**: 155–7.—**Schmidt & Reiter.** Schlächtereikompanien in Nordafrika. Ibid., 1941–42, **52**: 183–6.—**Schwerdt.** Schlächtereizüge für die Heeresverpflegung. Berl. tierärztl. Wschr., 1940, 282.—**Wagemann, H.** Vom Einsatz einer Schlächterei-Kompanie. Deut. Schlachthofztg, 1944, **44**: 45–7.

ABDOMEN.

See under section headings **Disease; Injury**—by organs; **Wound**—by organs.

ABDOMINAL surgery.

See as subdivision under section heading **Surgical technic.**

ABSENCE without leave.

See also in this section **Discipline; Leave.**

Clark, J. H. Clinical use of the Altus 36 point adjustment test in screening Army A. W. O. L.'s. J. Consult, Psychol., 1948, **12**: 276–9.—**Heine, R. W.** Absence without leave among mentally retarded trainees. J. Clin. Psychol., 1945, **1**: 141–6.

ABYSSYNIA.

See as subdivision under section headings **Wars and campaigns; World War II.**

ACADEMY.

For military and naval academies see section heads **Education; School.**

ACCELERATION [incl. speed]

See also **Dive bombing.**

Acceleration in aircraft. In: Flight Surgeon Ref. File, Wash., 1945, AAF Man. 25–0–1, Sect. 8, No. 5, 9–15.—**Arkhangelsky, A.** [The aviator and speed] Voen. san. delo, 1938, No. 2, 37–42.—**Henschke, U., & Keidel, W. D.** Short duration accelerations. CIOS Rep., Lond., 1945, Item 24, No. XXVI–56, 54.—**Komendantov, G., & Levashev, V.** Uskorenie. In: Encikl. slovar voen. med., Moskva, 1946–48, **5**: 659–69.—**Pertzoff, V. A., & Britton, S. W.** Effects of high acceleratory forces. Fed. Proc., Balt., 1945, **4**: 55.—**Poppen, J. R.** High acceleration of short duration. Mil. Surgeon, 1948, **103**: 30–2.—**Wood, E. H., Lambert, E. H.** [et al.] Effects of acceleration in relation to aviation. Fed. Proc., Balt., 1946, **5**: 327–44.—**Wulff, V. J., & Lovelace, W. R.** Acceleration. CIOS Rep., Lond., 1945, Item 24, No. XXVI–56, 10–7. ——— Accelerations occurring during flight. Ibid., 16.

—— angular.

MacCorquodale, K. The effects of angular acceleration and centrifugal force on non-visual space orientation during flight; methodology and preliminary results. 21 l. 27cm. Pensacola, Fla., 1946.

Forms Rep. No. 14, Res. Proj. X–148 (Av–4–3) U. S. Naval School Aviat. M.

—— Graybiel, A., & Clark, B. The effects of angular acceleration and centrifugal force on non-visual space orientation during flight; influence of habituation and technique of assuming the turn. 12 l. 27cm. Pensacola, Fla., 1946.

Forms Rep. No. 15, Res. Proj. X–148 (Av–4–3) U. S. Naval School Aviat. M.

Groen, J. J., & Jongkees, L. B. W. The threshold of angular acceleration perception. J. Physiol., Lond., 1948, **107**: 1–7.—**Ruff, S.** Influence of great tangential forces on the human organism. War Med., Chic., 1942, **2**: 534–6 (abstr.)

—— Biological effect.

See also **Fighter; Flight,** Dive.

Jones, B. F., Chapman, F. D. [et al.] The effect of repeated exposure to low atmospheric pressure upon tolerance to positive acceleration in monkeys. 2p. 28cm. Wash., 1943.

Forms Rep. No. 104, Com. Aviat. M. U. S. Nat. Res. Counc.

Ruff, S., & Strughold, H. The effects of acceleration. 83 l. 20½cm. Lond., 1945.

Forms F. P. R. C. No. 422, Gr. Brit. Flying Pers. Res. Com.

Verliac, F. A. *Connaissances actuelles sur l'influence des accélérations en avion sur l'organisme. 53p. 24cm. Par., 1940.

Williams, M. M. D., Baldes, E. J. [et al.] Are the intervertebral disks compressed or displaced during positive acceleration? 4p. 28cm. Wash., 1944.

Forms Rep. No. 255, Com. Aviat. M. U. S. Nat. Res. Counc.

Wood, E. H., Baldes, E. J., & Code, C. F. Changes in the external appearance of the human being during positive acceleration. 5p. 28cm. Wash., 1944.

Forms Rep. No. 391, Com. Aviat. M. U. S. Nat. Res. Counc.

Armstrong, H. G., & Heim, J. W. The effect of acceleration on the living organism. J. Aviat. M., 1938, **9**: 199–215.—**Bauer, L. H.** Effects of high speed. Cyclop. Med. (Piersol-Bortz) Phila., 1939, **1**: 886.—**Bazett, H. C.** Physiological reactions to the stresses imposed by high-speed aircraft. Q. Project Summary Off. Nav. Res., 1948, July, 393.—**Bergeret, P. M.** Effets physiologiques de la vitesse et des accélérations en avion. Rev. Serv. san. mil., Par., 1937, **107**: 301–24. Also Rev. san. mil., B. Air., 1938, **37**: 616–35.—**Bergin, K. G.** Effects of acceleration on man. In his Aviat. Med., Bristol, 1949, 109–15, illust.—**Binet, L., & Bargeton, D.** Etude de la course à vitesse forcée chez le rat; technique et représentation des résultats. C. rend. Soc. biol., 1945, **139**: 255.—**Code, C. F., Wood, E. H.** [et al.] The sequence of physiologic events in man during exposure to positive acceleration. Fed. Proc., Balt., 1945, **4**: 14.—**Dias Campos, F.** Influência das acelerações sôbre o organismo, en aviação. Rev. med. Rio Grande do Sul, 1944–45, **1**: 278–87.—**Diringshofen, H. v.** Ueber die Wirkung hoher Beschleunigungen und Fliehkräfte auf den Menschen. Luftfahrtmed. Abh., 1936–37, **1**: 72–85.—**Gauer, O.** Atmung und Beschleunigung. Ibid., 1938, **2**: 190. ——— Wirkung hoher Fliehkräfte auf den Menschen. Klin. Wschr., 1942, **21**: 847.—**Gómez Gómez, L. A.** Aceleración y desaceleración en aviación, y su influencia en el organismo humano. Med. cir., Bogotá, 1945, **10**: 1–19.—**Gray, G. W.** The physiology of acceleration. In his Science at War, 3. ed., N. Y., 1943, 240–3.—**Green, H. D.** Aviation physiology; acceleration. Clin. Bull. School M. Western Reserve Univ., 1943, **7**: 25–8.—**Gurvich, K., & Miroliubov, V.** [Effect of increased speed during flight on the aviator] Voen. san. delo, 1936, 42–7.—**Lambert, E. H.** Comparison of the physiologic effects of positive acceleration on a human centrifuge and in an airplane. J. Aviat. M., 1949, **20**: 308–35. ——— **Hallenbeck, G. A.** [et al.] The symptoms

which occur in man during exposure to positive acceleration. Fed. Proc., Balt., 1945, 4: 43.—**Lombard, C. F., Roth, H. P., & Drury, D. R.** The influence of radial acceleration, centrifugal force, on respiration in human beings. J. Aviat. M., 1948, 19: 355–64.—**Lovelace, W. R., II, & Gagge, A. P.** Human stresses resulting from high specd flight. In: Aviat. M. & Psychol. (Lovelace, W. R., II) Wright Field, 1946, 5–19, illust.—**Łuczak, A.** Dzialanie przyspieszeń na ustrój czlowieka. Lek. wojsk., 1945, 36: 17–40, pl.—**Poppen, J. R.** The effects of cold and high speed on the flyer. Internat. Clin., 1942, n. ser., 1: 60–7.—**Ranke, O. F.** Beschleunigungswirkung. Luftfahrtmedizin, 1937–38, 2: 243–58.—**Ruff, S.** Ueber den Einfluss hoher Fliehkräfte auf den menschlichen Organismus. Wien. klin. Wschr., 1939, 52: 861–4.—**Shavcov, S. I.** [The effect of acceleration on the organism of aviators] Feldsher, Moskva, 1942, No. 5, 15–8.—**Silvette, H., & Britton, S. W.** Acceleratory effects on renal function. Am. J. Physiol., 1948, 155: 195–202.—**Simmonds, W. J.** Problems of acceleration. Med. J. Australia, 1943, 2: 127–9.—**Sundgren, N.** Accelerationsverkan vid flygning. Tskr. mil. hälsov., 1944, 68: Suppl., 188–201.—**Tisseuil, J.** Essai de synthèse de la réaction d'accélération. Bull. Acad. nat. méd., 1949, 133: 558–62.—**Vohmianin, P.** [Effect of increase of speed in stunt flying] Voen. san. delo, 1938, No. 2, 42–5.—**Wood, E. H., Baldes, E. J., & Code, C. F.** External appearance of human being during positive acceleration. Air Surgeon Bull., 1945, 2: 117.

—— Blackout.

See also subheading (Protection: Clothing)

Hoff, E. C., & Fulton, J. F. Acceleration and black-out (amaurosis fugax) in aviation, from NRC aviation bibliography. 4 l. 28cm. Wash., 1941.

Forms Suppl. 5, Rep. No. 16, Com. Aviat. M. U. S. Nat. Res. Counc.

Andina, F. Ueber Schwarzsehen als Ausdruck von Blutdruckschwankungen bei Sturzflügen. Schweiz. med. Wschr., 1937, 67: 753–6.—**Diringshofen, H. v.** Mattscheibe, schwarzer Vorhang, Wegsein; die Belastungsfähigkeit des Menschen durch Fliehkräfte im Flugzeug. Umschau, 1943, 47: 230–2.—**DuVal, R. A.** A flying accident possibly due to the effect of centrifugal force. J. R. Nav. M. Serv., 1944, 30: 54–6.—**Fortunato, A.** Fisio-patologia della picchiata. Rinasc. med., 1941, 18: 91.—**Lambert, E. H.** The physiologic basis of black-out as it occurs in aviators. Fed. Proc., Balt., 1945, 4: 43.—**Livingston, P. C.** The problem of black out in aviation; amaurosis fugax. Brit. J. Surg., 1938–39, 26: 749–56.—**Mayerson, H. S.** A cardiovascular blackout test. J. Aviat. M., 1944, 15: 304–15.—**Phenomenon** (The) of black-out. Canad. M. Ass. J., 1940, 43: 271–3.—**Phillips, R. B., & Sheard, C.** Amaurosis fugax; effect of centrifugal force in flying. Proc. Mayo Clin., 1939, 14: 612–8.—**Van de Water, M.** Pulling out of fast dives. Chem. Leaflet, 1942–43, 16: No. 10, 19–22.

—— Cardiovascular effect.

See also other subheadings (Blackout; centrifugal; high altitude; negative; Tolerance)

Ham, G. C., & Landis, E. M. Apparatus for the study of changes in the peripheral circulation during acceleration. 8p. 28cm. Wash., 1942.
